# ROCKSTER RDS514

## FINISHING SCREEN

The track-mounted 2-deck screening plant RDS514 combines efficiency with robust but compact design, short setup times, superior screening results and reduced fuel consumption.

An economical preparation of almost any material such as sand, gravel, top soil, construction and demolition waste, coal and top soil is guaranteed by the RDS514. Like all Rockster screening plants, the RDS514 is easy to handle and can be single operated. With the same technical design as the RDS514, the mobile screen RTS514 has a third screening deck for a fourth final fraction.

### SCREEN

Top Deck	4350 x 1500mm (14' x 5')
Bottom deck	3600 x 1520mm (12' x 5')
Angle	22-34°
Max feed size	125mm
Capacity	Up to 350tph

### TRANSPORT DIMENSIONS

Length	16150mm
Width	3000mm
Height	3300mm
Weight	26,500kg (approximately)

### HOPPER

Feed Hopper	8m <sup>3</sup>
-------------	-----------------

### FEEDER BELT

Width	10500mm
-------	---------

### POWER UNIT

Drive	Tier 4 Final / Stage V Dies
Power	93kW

### FINES CONVEYOR

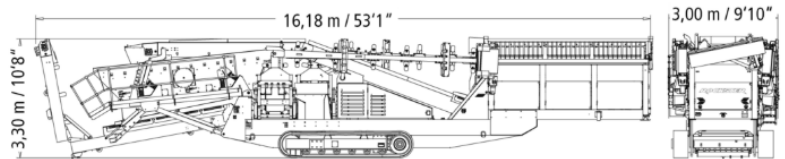

Discharge Height	4300mm
------------------	--------

### MIDS CONVEYOR

Discharge Height	4400mm
------------------	--------

### OVERSIZE CONVEYOR

Discharge Height	4400mm
------------------	--------
